V'Haer Lights Up the Night

“Out of the ballpark” is probably the best way to describe how great a hit this year's **V'haer** program was. An annual Fall highlight, the Friday night *seuda* and program was universally enjoyed. A perfect energy boost for the season, the extravaganza included great food, uplifting *zemiros*, a great speaker- **Mrs. Russi Newman**, a panel, and more. We are grateful to **Rabbi Binyamin Marwick** for greeting us on behalf of the **Shomrei Emunah Congregation** and to the students - for your great comradery and positive energy. Thank you to **G.O.** and our event heads for coordinating this unforgettable *Shabbos* program.

Special Grade Presentations

Dr. Yoel Jakobovits, renowned physician, *Talmid Chacham*, and **Chair of the *Bais Yaakov Vaad Hachinuch***, presented his annual talk on “*Torah and Science*” to the **Tenth Grade**, in conjunction with their study of *Parashas Bereishis*. The presentation and question and answer segment that followed underscored how our *emunah* has withstood the test of time and is not in any manner weakened or intellectually challenged by findings or theories in the scientific community. Beyond the specific details discussed, the meeting demonstrated the supreme confidence of our *Talmidei Chachamim* and educated professionals in the timeless Truths of the *Torah*.

The scheduled meeting with **Rabbi Daniel Mechanic** and the **Eleventh Grade** reinforces this grade’s understanding of the *yesodos* (foundations) of *Yahadus* in contrast to the misdirected beliefs of other peoples.

In conjunction with our **Twelfth Grade Holocaust Studies** program, our students experienced a unique opportunity in meeting Holocaust survivor, **Mrs. Irma Pretsfelder**, a beloved member of the Ranchleigh community (and “veteran” *bubby* of the **Bais Yaakov High School Adopt-a-Bubby program!**) who shared her war time experiences. The poignant program made a powerful, unforgettable impression on the students.

A robust and engaging presentation by **Mrs. Yocheved Lieder**, Bais Yaakov Board Member, Chair of our Alumnae Association, parent and owner of **Elder Care Leaders**, a company that helps senior citizens navigate the aging process, proved to be a most engaging and highly informative session for the Twelfth Grade **Economics/Business and Finance** class. The program was arranged for her class by **Mrs. Chana Kagan**, **Social Studies Chair**.

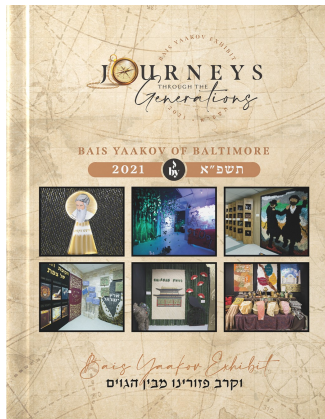

Across the Grades

Production is coming! The Tuesday morning breakout has generated great excitement as this mammoth undertaking begins to take shape...The **Dr. Bertha S. Nelkin Mishmeres Program** was launched with great fanfare and will hopefully make a great impact on our actual care and attention regarding matters pertaining to the range of interactions with others. [Click here](#) to read **Rachel Nelkin's** speech about her great grandmother, Dr. Bertha Nelkin....Brainstorming has been taking place among the staff for follow-up to last year’s “**Technology Awareness**” activities, with new innovations to be presented soon...Literally hundreds of students have been involved in an ever widening range of **Gemach** activities throughout the community, making an impact wherever they go.

High School Staff on the Go

Mrs. Shari Rochkind, High School Science Chair and Mrs. Gila Nelkin visited the “Chemistry Co-Design: Tinkering with Emulsions” at Rockefeller University in New York, sponsored by CIJE. The pair learned new information regarding emulsions and dyes and are working on creating a new laboratory activity testing different emulsions and their hydrophilic and hydrophobic properties. Thank you for the sacrifices involved in making this out-of-town trip, which will certainly ensure great benefits for the students in their science studies.

Now available! Bais Yaakov Exhibit 2021 - magnificent, hard cover coffee table book! 100+ pages of full color photos! Click here to purchase.
